

“Pop Up Christmas Card” by Cindy Hearty

Tools:

- Fiskars® MicroTip Scissors
- Fiskars® Personal Trimmer
- Fiskars® My Funny Valentine (scalloped heart) squeeze punch
- Fiskars® Square-A-Licious (scalloped square) squeeze punch
- Fiskars® Threading Water border punch
- Fiskars® Ultra ShapeXpress
- Fiskars® Craft Mat
- Sandpaper

Materials:

- Cardstock
- Heidi Grace “Forever Love”
 - Orchid Stripe cardstock
 - Flourishing Love cardstock
 - Cherish & Love cardstock
 - Printed ICONS Accent stickers
- Tape/glue runner *or* double-sided tape
- 2 x Foam Dots/Squares
- Pencil & black pen

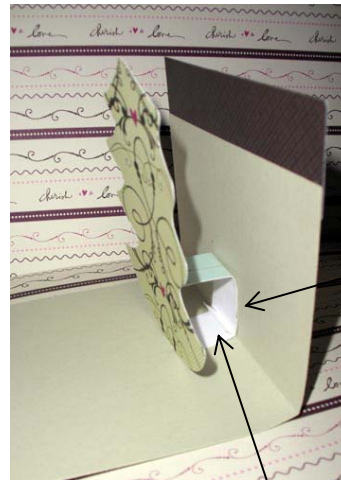

Instructions:

1. Cut cardstock to measure 6” x 4”
2. Use trimmer to cut a brown strip from the ‘Orchid Stripe’ cardstock, then cut the strip to measure 4” long. Apply double-sided tape to one of the short sides of your card and attach the strip of ‘Orchid Stripe’. Fold your card in half.
3. Using the template provided on the next page, trace the Christmas Tree onto the ‘Flourishing Love’ cardstock with a pencil. Use the USE with the orange spacer attached to cut the tree out.
4. Use trimmer to cut a 4” across x 3” high piece of ‘Cherish & Love’ cardstock (make sure the wording runs left to right). Scallop the bottom edge with the Threading Water border punch and attach to your card as pictured (you may need to cut a few mm from the top edge if it overhangs).
5. Punch a scalloped heart from ‘Cherish & Love’ cardstock and lightly sand the edges of the purple side. Attach to the front of your card with a foam dot.
6. Punch a scalloped square from ‘Cherish & Love’ cardstock to make a ‘present’. Draw ‘ribbon’ on the square (as pictured) with black pen. Use a Printed ICONS Accent sticker to make the ‘bow’ for the ‘present’. Stick the ‘present’ to the Christmas Tree with a foam dot.

7. Make the pop-up mechanism by cutting a strip of scrap cardstock $\frac{3}{4}$ " x 3". Fold the strip in half, open out, then fold each end into the middle. Stick one end to the centre of card at the crease, then the other end to the opposite side (pic 2). Attach your tree and present to the front of the box, as shown.
